**THE WATER WORKS.**—The recent cold snap has interfered with the progress of ditching and laying pipes for our new water works. But for this we could reasonably have expected that the ditching and laying have been almost, if not altogether completed by this time. As we inflated some of our friends with the idea of a water festival at the end of the string for want of funds to carry on the work. Since then, however, William Harty, Esq., has taken ten thousand dollars of the water bonds, and paid over the money, which insures the completion of the work. If there be any more to the Senate whether it be a door work, the Water Commissioners are determined to run the water into the press. The water will be turned on at the Holidays, which, when done, will give us a plentiful supply of water for the coming winter. Next Spring the water will be turned on for the summer.

His following from the Columbia Spits his mark so squarely on the head that we can't refrain from giving it to our readers.

The public corporations, societies and associations, generally have a funny notion about printers. They think we ought to be paid for nothing, and that we ought to do any and every thing for nothing, and that, in fact, gratis. In other words, they seem astonished if we ask half price only for publishing an ordinary notice, card, thanks, tribute of respect, a personal communication, or anything else that only interests a few persons, and not the general public. They hail with joy every notice to advertise, puff, etc. They forget that it takes money to pay the composition—more ink, paper, postage, and so on. The larger, even, to thank you for working for

been passed by Cherry Grove, on his return, he stopped for a short time at the residence of his brother, George B. Miller, and found him in his usual good health and spirits. At sunrise on Tuesday morning his team was taken to the mill by the railroad. Within about three-fourths of a mile from the mill, the wagon being carried to a tree, and the body of Mr. McDonald lying in the wagon, sufficed by the cold and the weight of the body, he died. He was conveyed to his home and Dr. F. J. Miller quickly summoned, but he was beyond the reach of medical skill, and life being extinct at the time on Tuesday evening. The cause of his death remains a mystery. He was a hale, robust man, and was in the prime of life. His wife was lying sick at the time, and though frightened at his unusual absence, she could not see that he was in any danger. He was a young man of good character. Mr. McDonald was a good citizen and a zealous Christian. He

died on day of sale.

Making a lively visit to our sister town, Confidence, we found the citizens, despite the epizootic, in the best of spirits.

Our friends M. A. Ross & Son, G. A. Black & Mountain, all secure. As advertised as rats in a granary. We found Mr. J. D. Vanhorn, as pleasant and agreeable as of yore; he says McGeowen still lives.

Our friends in Confidence who have not forgotten the school directors of Lower Turkeyfoot township, make this last request to the said Lewis to "crum from the rich man's table." Will said directors bearken into this last appeal in behalf of education, and sustain and sustain the "hat little shed."
